# *Beras* JatiluwiH

Beras Organik JatiluwiH

A Conscious Choice, Rooted in Wellness and Heritage.

There is something quietly powerful about the food we choose each day. Beras Organik JatiluwiH, meaning truly better, reflects a standard beyond taste, shaped by how it is grown, how the land is treated, and how people and nature are respected.

Produced through a fully organic system, the rice is grown from naturally cultivated seeds on land that has been carefully restored to a healthy, balanced state over time. Planted across Bali and Java, each variety carries its own character, texture, and natural goodness.

More than a product, Beras Organik JatiluwiH supports farmers, honours Subak traditions, and invites a more conscious way of living, beginning with something as simple as a daily meal.

# Organic Red Rice
